Professional Objective

Front-end Developer specializing in Swift with experience in modern architectures. I am seeking a position as an iOS Developer to leverage my skills in creating performant and user-friendly applications while advancing my professional growth.

Professional Experience

Back-end and Front-end Developer

AP Digital Services | April 2022 – January 2025

- Began as a Junior iOS Developer, working on app development using Swift.
- Implemented design patterns such as VIP, MVVM, and MVC for code organization and maintainability.
- Actively contributed to the evolution of project Design Systems, enhancing visual consistency and usability.
 - Componentized front-end elements for Swift, creating reusable blueprints that streamlined development.
 - Developed solutions resembling low-code platforms for front-end functionalities.
- Built responsive and optimized interfaces for iOS applications.
- Promoted to Back-end Developer, where I developed solutions using C# and RESTful APIs, expanding my expertise to server-side development.
- Collaborated with cross-functional teams to ensure efficient integration between front-end and back-end systems.
- Experience with cloud environments such as Azure and Google Cloud Platform (GCP).

Achievements at AP Digital Services:

- Promoted from Trainee to iOS Developer and subsequently to Back-end Developer.
 - Delivered projects with significant impact on user experience.
-

Education

- **Bachelor's Degree in Law**
Universidade de Itaúna
 - **Career Transition to Technology:**
Intensive studies in software development, with continuous practice and training to excel in the IT field.
-

Technical Skills

- **Programming Languages:** Swift, C#, JavaScript.
 - **iOS App Development:** Swift, VIP, MVVM, MVC.
 - **Tools and Environments:** Xcode, TestFlight, Git.
 - **Design and Usability:** Proficiency in Design Systems and responsive interfaces.
 - **Cloud Platforms:** Experience with Azure and Google Cloud Platform (GCP).
 - **Methodologies:** Lean-Agile, Scrum.
-

Key Projects

- **iOS App Development:**
Created high-performance applications with responsive interfaces, prioritizing user experience.
 - **Design System Evolution:**
Restructured and improved the Design System of a corporate project, enhancing visual consistency and brand identity.
 - Developed blueprints that simplified and accelerated the creation of reusable components.
 - **Front-end/Back-end Integration:**
Developed solutions ensuring seamless communication between front-end interfaces and back-end systems.
-

Languages

- Portuguese: Native
 - English: Advanced (Conversational)
-

Personal Summary

I am a resilient professional with a history of adapting to and overcoming challenges. I value continuous learning and have a passion for problem-solving, always maintaining a collaborative and positive approach.
