Professional Objective

iOS Developer specializing in Swift, with solid experience in modern architectures. Seeking a position in Mobile development to apply my experience in creating performant native applications. Utilizing my systemic vision, acquired through experience with integrations and back-end, to ensure the best communication between the application and cloud services.

Professional Experience

Back-end and Front-end Developer

AP Digital Services | April 2022 - January 2025

- Development and maintenance of native iOS applications using Swift, focusing on delivering responsive interfaces and excellent user experience.
- Implementation, maintenance, and migration of design patterns such as VIP, MVVM, and MVC.
- Active participation in the evolution of project Design Systems, promoting visual consistency and excellent usability.
- Componentization of front-end elements for Swift, creating reusable blueprints that accelerated development (low-code approach for front-end).
- Promotion to Back-end Developer: developed solutions using C# and REST APIs, expanding server-side knowledge.
- Experience with Azure and Google Cloud Platform (GCP).

Technical Skills

Languages: Swift, C#, JavaScript.

iOS Development: Swift, VIP, MVVM, MVC, Xcode, TestFlight, Git.

Design: Design Systems, Responsive Interfaces.

Cloud & DevOps: Azure, Google Cloud Platform (GCP), Lean-Agile, Scrum.

Education

Law Degree

Universidade de Itaúna

Career Transition: Intensive studies in software development and continuous education to enter the IT field.

Relevant Projects

- **Design System Evolution:** Restructured corporate design systems, promoting visual consistency and brand adherence through reusable blueprints.

- **Full-stack Integration:** Developed solutions ensuring efficient communication between mobile interfaces and server-side logic.

Languages

- **Portuguese:** Native
- **English:** Advanced (Conversation)

Personal Summary

Resilient professional with a history marked by adaptation and overcoming challenges. Passionate about continuous learning and collaborative problem-solving.
